48 ACTIVE MODELS	20 CNC MACHINING CENTRES	43 IN-HOUSE PROCESSES	200–500 MOQ, PCS	100% BATCHES HRC TESTED
---------------------	-----------------------------	--------------------------	---------------------	----------------------------

WHAT WE DO IN-HOUSE

- **Blades & heat treatment** — blanking, annealing, tempering, hardening, hardness verification on our own Rockwell tester
- **Grinding** — vertical grinders and water grinders for bevels, edges and mirror polishing
- **Machining** — 20 CNC machining centres, drilling, spring-pin and pivot hole work
- **Finishes** — stonewash, sandblast, titanium coating, etching, anodising, laser logo
- **Handles** — wood, G10/FRN, die-cast and injection-moulded handles, assembly in-house
- **Customisation** — your brand laser-engraved, custom blade steel, handle material and packaging

Every production lot runs through a documented 43-step routing with in-process QC and a per-batch hardness record.
